

INSTRUCTIONS

LEDme Track Fixtures

Model:

HM1-9S-WW HM1-9F-WW HM1-9S-CW HM1-9F-CW
HM1-18S-WW HM1-18F-WW HM1-18S-CW HM1-18F-CW

Caution:

Read all instructions before installing.

Switch off power before installing or re-lamping.

Do not attempt to energize anything other than a track light fixture.

All installation shall be in accordance with NEC and all local codes.

Overview:

Fixtures are designed for use on "HM1" series WAC Lighting track only. They may also be used on other manufacturer's brand of track (consult factory for compatibility).

Fixture Installation:

1. Loosen the cap ring from the rail adapter.
2. Raise the open end of the adapter to the rail.
3. Be sure the contacts seat into the grooves of the rail.
4. Replace cap ring and screw tight.
